

# Sajjad Roohandeh

Frontend website developer

## Profile

I'm Sajjad Roohandeh, a 17-year-old self-taught Frontend Developer and computer science student. I enjoy building clean, modern, and responsive websites using HTML, CSS, and JavaScript.

I learn quickly and consistently, and I improve my skills every day by working on real projects. I like experimenting with layouts, animations, and new techniques that make websites look better and work smoother.

Problem solving, attention to detail, and creating organized code are things I focus on while developing. Coding is something I genuinely enjoy, and I'm always motivated to learn more and become a better developer.

## Projects

- **Modern product Page**
